No. P.—8 OF 1927

OFFICE OF THE SURGEON-GENERAL
WITH THE GOVERNMENT OF BOMBAY:

Poona, 21st July 1927

From

LIEUT.-COLONEL R. W. ANTHONY, F.R.C.S.E., I.M.S.,
Ag. Surgeon-General with the Government of Bombay,
Poona;

To

THE SECRETARY TO GOVERNMENT,
General Department, Bombay.

Subject.—Annual Report on Mental Hospitals.

Sir,

I have the honour to submit the Annual Report on Mental Hospitals in the Bombay Presidency for the year 1926.

2. *Buildings.*—All the Mental Hospitals are in a good state of repairs. Minor improvements and additions to the Mental Hospitals at Yeravda, Ratnagiri and Dharwar were made during the year.

3. *Water-supply.*—The supply has been good and sufficient at all the Mental Hospitals.

STATEMENT No. I

Population

4. The total population of the Mental Hospitals increased from 2,036 in 1925 to 2,136 in 1926. Admissions during the year under report, inclusive of re-admissions, were 466 males, 132 females against 443 males and 94 females respectively in the previous year. The daily average strength was 1,544·9 or practically the same as in 1925, *viz.*, 1,544·2.

Discharges and Cures

5. During the year under report 332 patients were discharged cured, 61 improved, 19 not improved and 29 were discharged otherwise.

Sickness and Mortality

6. The daily average number of sick treated in hospital was 88·0 against 70·4 in 1925. The percentage of sickness to the daily average strength was 5·6 as compared with 4·5 in 1925. On the whole the health of the inmates was generally good during the year. Influenza was prevalent at Hyderabad in an epidemic form and there were 28 cases with 9 deaths at the Mental Hospital.

7. There were 194 deaths against 107 in 1925. The ratio of deaths per cent. of the daily average strength was 12·6 as compared with 6·9 in the preceding year. The unusually large death rate at the Mental Hospitals at Thana and Dharwar has been found to be fortuitous and is not likely to recur. At the Mental Hospital, Hyderabad, it was due to an out-break of Influenza. The following table gives the ratio of deaths per cent. to the daily average strength at the several Mental Hospitals :—

	Males	Females	Total
Naupada, Thana	29·3	37·0	31·1
Ratnagiri	4·0	15·9	7·2
Central Mental Hospital, Yeravda	E. 3·1 I. 4·9	1·8 5·7	2·5 5·1
Dharwar	20·2	22·8	21·0
Ahmedabad	6·7	6·8	6·8
Hyderabad	14·8	18·2	15·2
Total ...	12·1	13·9	12·6

8. The chief causes of death at the several Mental Hospitals during the year were Diarrhœa (50), Tubercle of the lung and other tubercular diseases (32), Nervous diseases (12), anæmia (12), Dysentery (10), Influenza (9), Pneumonia (7) and Diseases of the Heart (5). The high death rate at Naupada is attributed to the admission of several moribund cases and deaths among chronic cases. Of the total number of deaths (88) at this Mental Hospital, 32 were due to bowel complaints and 29 to T. B. of the lung and other tubercular diseases.

Statement No. II

Criminal Insanes

9. The total number of criminal insanes confined in the Mental Hospitals during the year under report was 242 (236 males and 16 females) with a daily average strength of 165·6.

Statement No. III

Religion

10. Of the 598 insanes admitted during the year 26 were Europeans and Eurasians, 30 Indian Christians, 358 Hindus, 138 Mahomedans and 46 other castes.

Statement No. IV

Previous occupation of the insanes admitted

11. Domestic servants (82) furnished the largest number of admissions followed by labourers (55), merchants and traders (53), clerks (41), cultivators (40), mendicants (35), students (29) and 91 other known occupation. In 107 cases the previous occupation could not be ascertained and 65 had no occupation.

Statement No. V

Ages of insanes admitted

12. Forty-six insanes were under 20 years of age on admission, 430 between 20 and 40, 116 between 40 and 60 years and 6 were upwards of 60 years.

Statement No. VI

Types of insanity

13. The principal types of insanity treated were Mania 716 against 698 in 1925, Melancholia 432 against 419, dementia 238 against 232, delusional insanity 92 against 79, insanity caused by *Cannabis Indica* or its preparations 122 against 104 and idiocy 47 against 45.

Statement No. VII

Ætiological factors and associated conditions in the insanes admitted

14. The principal predisposing and exciting causes were mental stress 104 against 68 in 1925, mental instability 54 against 74 and toxic diseases 36 against 33. Owing to insufficient history the causes of insanity were not ascertained in 223 cases as compared with 252 in the previous year.

Statement No. VIII

Cash accounts

15. The receipts from paying patients amounted to Rs. 92,525 in 1926 against Rs. 92,429 in 1925. The value of stores received from the manufacturing department less cost of raw materials was Rs. 18,894 as against 18,025 in the preceding year. The total receipts under the two heads amounted to Rs. 1,11,419 as compared with Rs. 1,10,454 in the previous year.

16. The total expenditure in the year amounted to Rs. 7,75,729 as compared with Rs. 7,63,286 in 1925. Deducting the receipts, the net expenditure was Rs. 5,37,311 against Rs. 5,21,572 in 1925. The subjoined table shows the cost per head per annum in the several institutions during 1925-1926 :—

Institutions	1925	1926
Naupada, Thana	414	556
Ranagiri	246	243
Central Mental Hospital, Yeravda	632	589
Dharwar	278	249
Ahmedabad	237	253
Hyderabad	256	244

Employments and amusements

17. Gardening, weaving and cane work continue to be the chief occupations of the insanes. They are also employed in helping in

the domestic work of the institutions. Rs. 3,059 were spent during the year on the amusements and recreation of the insanes as compared with Rs. 2,724 expended for the purpose in 1925.

Visitors

18. The official visitors were regular in their attendance at the several Mental Hospitals.

General Remarks

19. As the accommodation for insanes is not quite sufficient steps are being taken to increase it beginning with the Central Mental Hospital, Yeravda. It is hoped also gradually to improve the accommodation available in the other Mental Hospitals.

20. A summarised report of the Central Mental Hospitals, Yeravda, is published as an appendix.

I have the honour to be,

Sir,

Your most obedient servant,

(Signed) R. W. ANTHONY,

Lieut.-Colonel, I.M.S.,

Ag. Surgeon-General with the Government of Bombay.

APPENDIX

Annual Report of the Central Hospital for Mental Diseases, Yeravda, for the year 1926

I have been in charge of the Hospital throughout the year.

Statement I.—On January 1st 1926, the population of the Hospital was 589. During the year 170 new cases, 124 males and 46 females, were admitted as compared with 166 for 1925. The total number treated in 1926 was 759 as compared with 721 for 1925.

During the year 85 patients were discharged recovered, 16 improved, 11 not improved, and 15 otherwise, giving a total of 127, as compared with 110 in 1925. The deaths numbered 28 leaving a total of 604 on 31st December 1926. The causes of deaths were as shown below :—

Cerebral Atrophy ...	2	Pneumonia ...	4
Epilepsy ...	4	Valvular disease of heart ...	2
Septicæmia and Pyæmia ...	3	Pulmonary Tuberculosis ...	1
Enteritis ...	5	Myiasis ...	1
Colitis ...	1		
Dysentery ...	4		
Liver Abscess ...	1	Total ...	28

The general health of the patients was good throughout the year.

The total accommodation on 31st December 1926 was 572. No additional accommodation has been provided during the year.

Statement I-A.—Shows the number of cases sent for observation during the year; the total was 32; of these 2 died and 4 were discharged as they were not insane. It is deserving of notice that these observation cases are increasing every year; there were 11 in 1924, 27 in 1925 and 32 in 1926. Many of these cases are brought to the Hospital by parents or relatives in the same way as other cases are taken to General Hospitals for diagnosis and treatment. It is an indication that the work and purpose of the Hospital are becoming more widely known to the general public and signs are not wanting that the old stigma, formerly attached to patients admitted to this Hospital is gradually disappearing, as public opinion becomes more educated about mental diseases and their treatment.

It is even more gratifying to note that during the year we have admitted 11 voluntary boarders, none of whom asked to be discharged until they had completely recovered and until I had informed them that they could derive no further benefit from remaining in Hospital. These figures 32 *plus* 11 or 43 in all, represent 25 per cent. of our total admissions who were admitted without previous certification.

Statement II.—Criminal patients. The total number was 37 during the year; 9 were discharged and 2 died, leaving 26 in Hospital. A large proportion of these remaining cases are old or demented patients who can no longer be considered dangerous in the least degree. I have recently recommended that these should have their charges withdrawn and be made ordinary civil patients. If this is done, I expect the relatives of some will come forward and take them out of Hospital.

Occupation for patients.—This consists of gardening, working, in the farm lands, assisting in the office, in the stores, library, kitchen, carpenter's shop, etc., some spinning and weaving and caning of chairs is also done. The women do needle work, knitting, corn grinding, spinning, etc., etc. Occupational therapy is a well recognised method of treatment and one which yields excellent results in Mental Hospitals in European countries, but here, the facilities for carrying out this kind of treatment are very poor indeed. A Hospital of this size should have a workshop with a trained Overseer in charge whose duty would be the organising of work and the instruction of the patients. In the same way, a work mistress should be employed on the female side.

Hospital Out-turn.—The value of garden produce supplied to the Hospital as well as to the public in 1926 was Rs. 9,288-9-1 as compared with Rs. 10,049-13-9 in 1925. The decrease is mainly due to the sewage-bound plots for vegetables being given a rest under the expert advice of the Government Agricultural authorities. The jaggery made from our sugarcane crop has been very satisfactory and is estimated at Rs. 2,600 against Rs. 2,250 of the previous year. The cereal crop of jowari has fetched a price of Rs. 2,200 the highest yet realized—against a sum of Rs. 600 in 1925.

Recreation and Amusements.—The amount spent from the special grant this year was Rs. 1,559-3-0 as compared with Rs. 1,187-15-0 in 1925.

The usual weekly recreation hall entertainments have been held regularly and there has been a distinct increase lately in the number of patients playing tennis, cricket, football and badminton. Once a month a party of over 100 men and women have gone out into the surrounding country for picnics lasting the whole day; these are greatly appreciated and I have even permitted selected patients to go swimming in the river, under supervision, of course. Mr. Mody the Proprietor of the Empire Cinema, Poona, continues to provide us with a weekly Cinema show free of charge. We now have an efficient projector of our own the funds for the purchase of which were sanctioned by Government last year; but for films, we are entirely dependent on the generosity and kindness of the abovenamed gentleman who sends every week his own operator with sufficient films for two hours continuous entertainment. The patients are most grateful for this weekly show and I desire to express again my thanks to Mr. Mody.

During the year we have received numerous small gifts such as musical instruments from ladies and gentlemen interested in the Hospital. The Red Cross Society of India sends us quarterly a number of useful articles such as hospital comforts, invalid chairs, games, writing materials, etc., etc.

(Signed) A. H. HARTY, Major, I.M.S.,
Superintendent, Central Mental Hospital, Yeravda.

BOMBAY : PRINTED AT THE GOVERNMENT CENTRAL PRESS.

GOVERNMENT OF BOMBAY.

GENERAL DEPARTMENT.

Resolution No. P.—53.

Bombay Castle, 28th November 1927.

Letter from the Surgeon General with the Government of Bombay, No. P.—8, dated the 9th November 1927:—

"I have the honour to forward herewith the Annual Report on the Mental Hospitals of the Bombay Presidency for the year 1926, duly signed by me, and to state for the information of Government that there is nothing in it, the immediate publication of which can be considered as of doubtful expediency."

RESOLUTION.—The report should be published.

By order of the Government of Bombay
(Transferred Departments),

A. H. DRACUP,
Under Secretary to Government.

To

The Surgeon General with the Government of Bombay,
* The Director of Public Health for the Government of Bombay,
* The Commissioner in Sind,
* The Commissioner, Northern Division,
* The Commissioner, Central Division,
* The Commissioner, Southern Division,
* The Commissioner, Bombay Suburban Division,
